

delcambe

Attention ! Make sure that the pedimeter is printed at 100 % by verifying that the scale measures 5cm.

5cm

FIND THE RIGHT SIZE!

1. Make sure that the pedimeter is well printed by using the scale.
2. Barefoot, stand up and place your heel against the line.
3. Mark the extremity of the toes with a pencil.
4. Between two sizes, always choose the biggest one and read carefully the other information available about the model.
